EXAMINER'S COMMENTS

Information Disclosure Statement

1. The information disclosure statement filed 10 June 2004 has been considered and made of record. Note documents US 6,048,722 and US 4,128,456 have been lined through because these documents have already been made of record (See PTO-892s attached to the office actions dated 19 Dec. 2002 and 30 July 2003).

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

With respect to the references of Olesen et al.(US 6,063,260); JP 11 083 785 and Costa et al, none of these references teach or fairly suggest the electrode(s) and perfusion inlet and/or outlet integrated and/or molded with respect to a common support.

With respect to the references of Alberly et al. (US 5,462,645) and GB 2 297 383, while these references disclose a plurality of electrodes and perfusion inlet and outlet on a common support, the electrodes are not capable of impaling a cell because they are enclosed within a sealed housing and elimination of the disclosed housing would render the prior art device unsatisfactory for its intended purpose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
